

# TP01

Fiber Optic Power Meter

## Handheld Optical Power Meter

### Accurate, Tough and Versatile.

The Yamasaki TP01 Fiber Optic Power Meter is the latest self-developed multi-functional fiber optic power meter designed for the installation, construction and maintenance of fibre optic networks.

Yamasaki's TP01 Fiber Optic Power Meter features a rugged outer housing, optional backlight, auto shut off function, wide measurement range, accurate test, self-calibration and universal connector. The stability and reliability are greatly enhanced due to the implementation of the large square 1.0mm InGaAs detector.

Ideal for use in fiber optic telecommunications and data networks, It is capable of accurately measuring power in wavelengths of 850, 1300, 1310, 1490, 1550 & 1625nm.

Recommended for use with the Yamasaki TL01 Fiber Optic Light Source

### FEATURES

- Wavelength Range: 850, 1300, 1310, 1490, 1550 & 1650nm
- Input Range  $-70 \sim +3\text{dBm}$
- Adaptors for FC, SC & ST fiber optic connectors
- Rugged Outer Housing
- Instant-On Operation
- Ultra-Bright LCD Display
- Belt Pouch
- Shoulder Strap
- AC Adaptor
- Power Saver Feature
- 140 Hours on 3 x AA Batteries (included)
- Instruction Manual
- 12 Month Warranty

Note. Some Yamasaki fiber optic laser products can cause eye damage if used incorrectly, Please consult your instruction manual and store away from children. Specifications and descriptions are subject to change without prior notice.
